

# ATOMIC LEARNING: A CAMPUS-WIDE LEARNING SOLUTION

## Information Technology

Help IT staff maintain a focus on critical initiatives while continuing to support faculty, staff, and students with on-demand learning resources on the tools your campus is using.

## Instructional Technology

Provide faculty and instructors with a no-hassle way to integrate technology support into coursework. Allowing educators to focus on content, rather than the software or device.

## Admissions

Give your incoming students the skills needed to get them on the fast track to college- and career-success with online courses focused on self-management, staying safe, and much more.

## Online Learning

Help ensure the success of online students and instructors alike with in-depth courses on online discussions, time management, learning management systems (LMS), and much more.

## Instructional Design

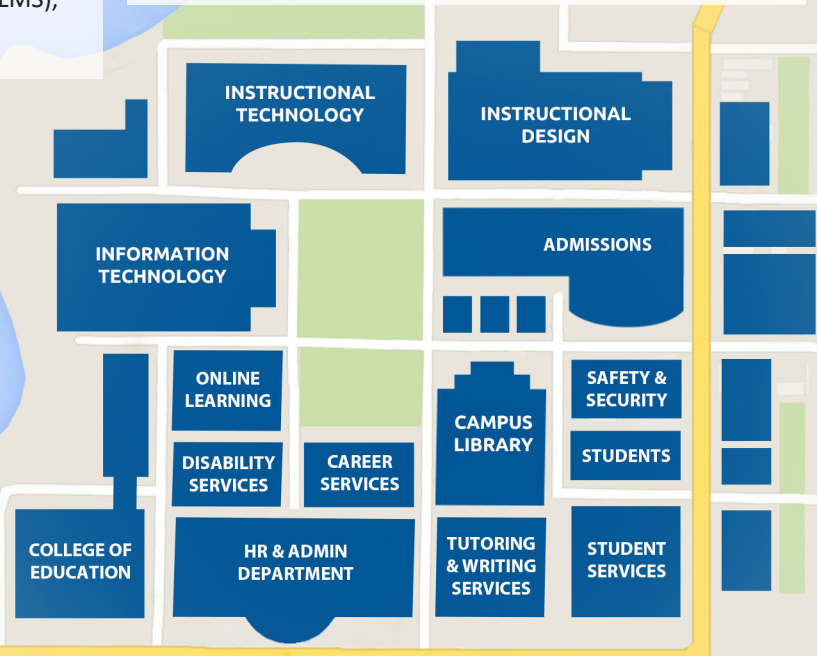

Support faculty and instructors as they shift the way they teach and deliver courses with non-intimidating learning resources focused on instructional practices, online courses, and more.

## Safety & Security

Ensure that your campus is taking the necessary precautions to ensure student safety with learning resources focused on empowering students with the skills they need to stay safe on—and off—campus.

## Disability Services

Facilitate a barrier-free campus and strive towards 508 and WCAG compliance with highly-relevant online learning resources focused on accessibility.

## Students

Give students the best chance at success in college and beyond with on-demand learning resources focused on building critical self-management, personal safety, and workplace-ready skillsets.

## College of Education

Prepare pre-service teachers for the future of learning with specialized online learning resources focused on learning methodologies, instructional practices, and more.

## Career Services

Empower your career services staff with online learning resources designed to help those entering the workforce gain the confidence and skills needed in today's workplace

## Tutoring & Writing Services

Shift the focus to helping students with the content of the project instead of research and technology basics with on-demand access to online learning resources.

## Student Services

Provide students with the on-demand access to self-help tools focused on time management, working with groups, research paper basics, digital literacy, and many others.

## Human Resources & Administration Departments

Provide an on-going opportunity for faculty, staff, and students alike, to quickly enhance their skillset and advance their careers through the use of on-demand learning resources.

## Library

With resources on research, technology, and formatting basics, librarians and staff are better able to utilize their expertise to assist students by focusing on the content of a project.

# LEARNING SOLUTIONS: HIGHER EDUCATION

## Why Atomic Learning?

Ensure your faculty, staff, and students are prepared for lifelong success with 24/7 online learning resources that address some of today's most common challenges.

- **Support student retention and engagement** with college specific self-management skills—perfect for first year students. Resources on, *Choosing a Major, Succeeding in an Online Class, Managing Money*, and more.
- **Help students prepare for the workforce** with the in-demand soft skills that employers are looking for.
- **Save your faculty and staff time** by providing flexible learning opportunities that works around their busy schedules.
- **Make the most of your tech investments** with resources designed to ensure technology is being used for maximum impact.
- **Help faculty adapt to changing instructional expectations** with resources that can help ensure instruction is relevant to today's learners.

## How it works:

- **Unlimited access** to online learning resources for your entire campus, 24/7.
- Support barrier-free learning through the **508 & WCAG compliant website**.
- **Assign, recommend, and monitor** progress with built-in reporting.
- Demonstrate learning with **Certificates of Completion** and **Assessments**.
- Upload, assign, and track your own content by creating **custom learning courses**.
- Customize the learning experience with **your institution's logo** on the site.
- Simplify access with a **variety of integration options** (*See side panel*).

## A Seamless Experience

A variety of integration and authentication options are available to simplify access and integrate Atomic Learning resources into existing campus systems.

### LTI Tool

Easily add videos and learning resources into many popular LMSs, with Atomic Learning's industry-leading LTI Tool.

### Blackboard Building Block™

Allow instructors to seamlessly integrate content into courses through Mashup, while tying activity to the Grade Center.

### SCORM-Compliant Content

Simplify learning by incorporating videos and other resources into your SCORM-compliant content management system.

Streamline access with remote authentication and/or single sign-on options, including CAS, Shibboleth, ADFS, LDAP, Open ID, and GoogleID.

# PREMIUM CONTENT: ENHANCED LEARNING

## Real World Safety

Helping address federal requirements and parent concerns, this content collection was designed to empower learners with the skills needed to take ownership of their safety—both on and off campus.

Topics include: *How to Identify a Threat, How Do I Stay Safe While Drinking*, and others.

## Educator

Designed for students pursuing an education degree, the Atomic Educator solution includes a library of highly specialized learning resources focused on learning methodologies, technology integration, Common Core, and other critical topics for current and future educators.
